Inverness Street: a Mural Installation of Photographs

Inverness Street

If you walk slowly along Inverness Street, on a street that looks like any other street, everything seems so predictable.

But, if you look at this block, close to the middle of Vancouver, from the gaze of someone who wants to see art, it is possible to open another door into another place there. Sometimes doors open depending upon what point of view you may have. and emerge into life.

As time slows down on Inverness Street, things change.

Come in ! If you slow down with life and let things appear as they come, you start to see things bloom into Spring

Inverness Street: a Mural Installation of Photographs

This mural of Inverness Street is for people who are interested in downloading these images as art prints or as an art book. There are 12 images in a pdf form in this ebook. I made this installation portable and easy to print and download on the web. This is the sample version (not the full version).

This photography installation is a mural and has abstract and magnified photographs of trees during the Spring on Inverness and 49th Street in Vancouver. The images have blown-up variations of new forms blossoming on trees, bold contrasts of forms, and a vibrant use of green.

I sincerely hope that you will like these images from my art practice. I returned to Inverness Street one day because I had walked down this area about two years before, hoping that I could take some nice pictures with my camera. The book is a collection of a lot of photographs that I took there with poetry and writing about art. These twelve images are some of my favourite ones from the book which is on my website at www.sketchbookcommunications.com.

Thank you always for looking.
